

# An introduction to a Loxone Smart Home.

LOXONE

# What is a Smart Home?

# A home that takes care of itself.

*“My Loxone Smart Home and I think alike. If I ever want to change something, a single press on a switch is enough.”*

# Smart lighting

- All lights automated: based on presence, time of day and light levels
- The ideal lighting moods for any occasion
- Smart lighting that complements interior design

# Smart heating

- Zoned heating
- Intelligently automated
- Always at the right temperature
- Set heating schedules
- Maximum energy-efficiency

# Smart security & access control

- Two-way audio to your mobile phone or tablet
- Be notified when someone is at the door
- Unlock your door or open your garage from anywhere in the world
- Custom access codes and activity logs

# Multiroom audio & multimedia

- ‘Movie Mode’ at the touch of a button
- Control TVs, projectors, speakers, lighting and more
- Wake up to your favourite playlist
- Play music automatically when you enter a room
- Intuitive control in a single app

# Automatic blinds & shading

- Blinds close to prevent a room from overheating
- Automatic blinds let the morning sun in
- Blinds close to give privacy when lights turn on in the evening

# Smart energy management

- Monitor energy usage
- View battery levels
- View production and consumption data
- Identify energy guzzlers

# Intelligent car charging

- Integrated car charging
- Works with KEBA
- Set charge schedules
- Control via your mobile
- In partnership with BMW i

**Your home.  
In perfect  
harmony.**
